

How to use North Scripts Home Delivery to fill your prescription

North Scripts Home Delivery Pharmacy is helping us reduce the cost of medication

PharmaForce and your employer have partnered with North Scripts Home Delivery Pharmacy to help control your pharmacy costs while maintaining access to the medications you need to treat your health conditions. North Scripts Home Delivery Pharmacy is an International Sourcing Pharmacy that is licensed in the United States. It warehouses and distributes prescriptions manufactured by the major name-brand pharmaceutical companies at a significantly lower cost.

FAQs

Which medications does North Scripts Home Delivery provide through PharmaForce?

Medications labeled North Scripts Exclusive (NSE) in your formulary are medications that are only covered when filled through North Scripts Pharmacy.

How do I get my NSE prescriptions filled?

The easiest way to get this medication is for you to complete the PharmaForce/North Scripts Home Delivery order form found on your member portal and send it to enrollments@northscripts.com. If you need help completing this form, please call North Scripts Home Delivery Pharmacy Customer Support at 1-855-231-4010 from 8 a.m. to 5 p.m. CST, Monday through Friday and 8 a.m. to 12 p.m. CST, Saturday.

How to use North Scripts Home Delivery to fill your prescription

Why can't I just get this medication at my local pharmacy?

North Scripts Home Delivery is helping us bring down the cost of health care by offering significant savings on certain medications. PharmaForce is working with North Scripts to provide you and your employer with the highest quality, lowest-cost medications to treat your medical conditions. If you get an NSE medication at a pharmacy other than North Scripts, it will not be covered by your pharmacy benefit coverage.

If North Scripts Home Delivery is less expensive, why can't I just get all my medications through them?

Not every medication available through North Scripts Home Delivery offers the same level of savings. PharmaForce identified certain medications available through North Scripts Home Delivery that offer significant savings.

Why do I have to complete a form for North Scripts Home Delivery?

All mail order drugs require the gathering of patient and prescription information. In the case of North Scripts Home Delivery, your prescriber's office will need to send a prescription to North Scripts Pharmacy to get your medication prepped for dispensing and mailing.

Does it take longer to get medications from North Scripts Home Delivery?

North Scripts Home Delivery offers fast, secure home delivery with 24-48 hour direct-to-patient shipping, including cold chain (temperature sensitive) drugs. However, timing can vary depending on how long it takes for North Scripts to connect with you the patient to obtain your information, contacting your prescribing physician's office, or obtaining prior authorization if a medication requires it before it can be dispensed . The standard shipping time from the point where North Scripts has all the information needed to fill the script is typically less than 24 hours to mail the medication to your home address.
